UNAUDITED QUARTERLY REPORT ON FINANCIAL RESULTS FOR THE QUARTER ENDED 31 MARCH 2022

A. EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS - MFRS 134

A1 Basis of Preparation and Accounting Policies

The interim financial statements are unaudited and have been prepared in accordance with the requirements as set out in Malaysian Financial Reporting Standards ('MFRS') No. 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The interim financial statements should be read in conjunction with the Group's annual audited financial statements for the year ended 31 December 2021. The explanatory notes attached to the condensed consolidated interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2021.

The significant accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted for the annual financial statements for the year ended 31 December 2021, except for the adoption of the following revised Malaysian Financial Reporting Standards (MFRSs) which are effective for annual periods beginning on or after 1 January 2022.

Description	tive for annual periods beginning on or after
Amendments to MFRS 3: Business Combinations	
(Reference to the conceptual Framework)	1 January 2022
Amendments to MFRS 116: Property, Plant and Equipment	
(Proceeds before Intended Use)	1 January 2022

The Group recorded revenue of RM7.03 million and loss before taxation of RM0.08 million for the current quarter and period to date as compared to revenue of RM6.84 million and loss before taxation of RM0.64 million for the preceding year corresponding quarter and period to date. The marginally higher revenue and improved result for the current quarter and period to date were mainly attributable to higher average selling prices despite lower sales volume for the Group's brick products. The higher average selling prices had resulted in improved margin for the Group. Additionally, there was also savings in operating cost as a result of the temporary shutdown of a production line as compared to the preceding year corresponding quarter and period to date.

B2 <u>Material Change in Loss Before Taxation for the Current Quarter compared to the Immediate</u> Preceding Quarter

	Individua		
	31/03/2022	31/12/2021	Changes
	RM'000	RM'000	%
Revenue	7,029	6,636	6
Operating profit	60	578	(90)
Profit before interest and tax	60	578	(90)
Loss/(Profit) before tax	(75)	371	(120)
Loss/(Profit) after tax	(75)	371	(120)
Loss/(Profit) attributable to ordinary equity holders of the			
parent	(75)	371	(120)

The Group recorded a loss before taxation of RM0.08 million for the current quarter as compared to a profit before taxation of RM0.37 million for the immediate preceding quarter. The loss before taxation for the current quarter was primarily due to higher administrative expenses and production costs. The increase in production costs was mainly due to rising energy costs, such as diesel and fuel oil prices following the hike in crude oil price worldwide.

In addition, the profit before taxation in the immediate preceding quarter was also partly due to the net effect from the recognition of finance income of RM0.3 million under MFRS 9 that arose from the deferment of amount due to a corporate shareholder.

B3 Commentary on Prospects

The Malaysian economy is expected to remain on its recovery path, supported by continued expansion in global demand and higher private-sector expenditure given improving labour market conditions and ongoing policy support. The transition to the endemic phase of Covid-19, with border reopening and the lifting of restrictions, is also expected to further improve domestic economic activities.

The property market environment remains challenging although there are signs of improving sentiment supported by improvement in wider economic activities. The lingering issues of supply overhang and price affordability will continue to hamper enthusiasm in new project launches. However, the challenges of labour shortage and other pandemic-induced disruptions in property construction sector could likely be eased in the near term after Malaysia transition to the endemic phase and the reopening of the country's border.

Against this backdrop, although there are early signs of a recovery in new housing project launches to meet pent-up demands, uptick in housing project construction activities, and hence the demand for clay bricks is likely to be gradual. With the uptick in demand, albeit gradual, the Group is hopeful for the continue recovery in selling prices and that the pressure on our margin would ease a little in the face of challenges from rising energy costs as well as the implementation of the new minimum wage level of RM1,500 with effect from 1st May 2022.

Given the aforementioned scenario, the Group will continue to focus on its strategy and effort to contain the production costs, optimise its operational efficiency and product quality in order to stay competitive in the industry.
